The main difference between Athens and Sparta is that Athens was a form of democracy, while Sparta was a form of oligarchy. Athens and Sparta are two prominent Greek rival city-states. Although these are not far from each other, there are many differences between these two states. Athens was the center of arts, learning, and philosophy while Sparta was a warrior state. In addition, Athens' economy was mainly based on trade, while Sparta's economy was based on agriculture and conquest. Key areas covered 1. What is Athens? 2. Society, Governance, Spartans3. What are the similarities between Athens and Sparta? 4. A schema of common characteristics4. What is the difference between Athens and Sparta? 5. A comparison key differences Key terms Athens, Athens, Sparta, Spartans What is Athens Athens was one of the largest and most influential city-states in Greece. The city received its name from Athena, the Goddess of war and wisdom. The Parthenon, the temple built for Athena, sits atop a hill in the center of the city. In fact, this is one of the oldest cities in the world, with a history spanning more than 3,400 years. Figure 1: The ancient Parthenon of Athens was the center of arts, philosophy, and learning. Thus, historians often refer to it as the cradle of Western civilization. It is also home to the Platô Academy and the Aristotle Lyceum. Historians consider Athens to be the birthplace of democracy. The ancient Athenians used a system of government where everyone (excluding women, slaves, and those unborn to Athenian parents) could vote on important issues, whether or not to participate in the war. In addition, there was a lottery system to elect all public officials. The city of Athens came to its golden age under the leadership of Pericles.
