Page content transcription If your browser does not render page correctly, please read the page content below CONCEALED CEILING SYSTEMS INSTALLATION GUIDE rondo key-lock ® CONCEALED CEILING SYSTEMS VARIOUS KEY-LOCK® COMPONENTS INTRODUCTION VARIOUS RONDO DUO® COMPONENTS Whether you're looking to direct fix or fully suspend your plasterboard ceiling, the Rondo KEY-LOCK® Concealed Suspended Ceiling System is designed to produce a high-quality structure for a flawless, flush or featured finish. The KEY-LOCK® system can also be used as a framework to line virtually any existing wall or substrate. 121 127 129 It's our most popular and superior ceiling system as it is available for fire-rated, bulkhead, seismic and acoustic designs, as well as having the strength to hold multiple layers of plasterboard. SUITABLE FOR • Flush plasterboard ceilings 138 139 140 • Direct Fix or Fully Suspended applications • Non-Fire Rated systems • Fire Rated systems • Acoustic Systems available (by design) • Seismic Systems available (by design) 142 167 226 SPECIAL FEATURES • Able to be designed for external use, for example External Soffits • Base material engineered from G2 BlueScope Steel for strength and reliability 237 272 301 • Primary and secondary profiles available in custom lengths or radiusses WHY USE KEY-LOCK® The components within the system have been specially 303 305 308 designed so that they simply snap into sections, without mechanical tools being required. This means it's easy to install and speeds up time on site. Top Cross Rail and Furring Channel sections have rolled edges to make them safer to handle and with our state-of-the-art manufacturing processes, we can also produce these profiles in custom lengths or radiusses for vaulted and 314 315 333 curved ceilings. Our KEY-LOCK® Ceiling System can also be installed with our Acoustic Mounts to improve airborne sound and impact sound transmitted between floors, which is particularly important in multi-residential projects. 394 534 2534 Note that this brochure is intended to be used as a guide only; full details should be obtained from the Rondo website. All products in this brochure are for internal use only unless otherwise indicated. Rondo recommends installation by a qualified tradesperson and that you ensure you are referring to the latest version of this guide 547 B005 BG01 by comparing it to the one on our website. BG02 FC-INF0030 FC-INF0080 rondo key-lock ® INSTALLATION DETAILS 1 SPACINGS TABLE 1: SPAN TABLE FOR INTERNAL USE Table 1 has been prepared for a batten spacing of IN POPULATED RESIDENTIAL AREAS 600mm. Confirm with your lining distributor that this 600mm SPACINGS spacing is suitable for your lining board selection. 2 SELECTION PLASTERBOARD LINING BATTEN/FURRING CHANNEL 1 x 10mm 1 x 13mm Channel to suit your lining board. 301/303 1200 1200 3 DIRECT FIX AND INSTALL. Refer to Figures 1- 4 for the direct fix clip relevant for 129 1580 1540 your batten/furring channel choice. 308 1260 1240 4 SUSPENDED CEILINGS If your ceiling needs to be suspended by more than 200mm, refer to the next page. NOTE: For help with quantity take-offs, use the Rondo Ceiling Design Wizard by downloading the Rondo App or visiting our website. DIRECT FIX INSTALLATION Timber joist (or steel purlin) Maximum span as per Table 1 above 129/308 Furring Channel with 226 Direct Fix Clip NOTE: Leave 2mm gap between underside of joist and batten 301 Batten with 314 Direct Fix Clip FIGURE 1: DIRECT FIX APPLICATIONS USING STANDARD RONDO COMPONENTS 100mm 100mm FIGURE 2: FIGURE 3: FIGURE 4: DIRECT FIX APPLICATION BENEATH CONCRETE SUSPENDED APPLICATION USING 129/308 DIRECT FIX CLIP 305 IN SUSPENDED SLAB USING BG01 CLIP AND ONLY INSTALLED FURRING CHANNEL WITH 394 DIRECT FIX CLIP APPLICATION TO A RECOMMENDED WITH A CENTRE FIX MAXIMUM OF 100mm FOR 301 BATTEN SUSPENDED CEILING

INSTALLATION For ceilings with more than 200mm suspension depth, a fully suspended system should be installed. 1. Fix Rondo 140 Wall Track (or 142 Wall Track if using the and then click into Top Cross Rail* firmly. Ensure 139 308) around the perimeter of the ceiling Clip engages in both sides: "click-clack". 2. Secure hanger clips at a 1200mm x 1200mm grid pattern 6. Secure Furring Channel to Top Cross Rail at a maximum ensuring the first Top Cross Rail is located within of 600mm apart or at appropriate spacings for your 200mm of abutting walls. If using multiple layers of lining choice, ensuring 5-10mm clearance is left plasterboard consult the Rondo Professional Design between end of Furring Channel and wall. Manual. 7. Framing can be leveled by adjusting the 2534 Clip by 3. Cut 121 Suspension Rod to required length and slide squeezing tabs together into hanger clip tabs. Refer Figure 6. 8. See illustrations below for fixing and bracing details. 4. Slide 2534 Clip onto the other end of the rod. 5. Secure 127 Top Cross Rail to the 2534 Clips with a NOTE: twisting action. Fit 139 Joiner Clips to Furring Channel Distance between hangers supporting TCR = span of TCR Suspension Clip 2534 121 Suspension Rod Allow 5-10mm clearance at Furring Channel to wall Furring Channel Track 140/142 Top Cross Rail 127 TCR spacing Maximum span 600mm for single layer of FC spacing Locking key 139 10 & 13mm board. For 16mm or multiple layers, screw fix Furring Channel to wall track Furring Channel 129/308 Top Cross Rail 127 200mm max. span Furring Channel if wall track is not used 129/308 FIGURE 5: KEY-LOCK® SUSPENDED CEILING 400mm max 534 to purlin 272 Joiner against wall for stability 547 534 to (For single layer 200mm max to concrete timber joist internal plasterboard ceilings) from wall FIGURE 6: HANGER CLIPS FIGURE 7: STABILISING THE SYSTEM For more complex technical details, view the Rondo Professional Design Manual or speak to a stockist in our Rondo Partner Network. Download a copy of the Manual and locate a Rondo Partner by visiting our website. For board fixing details, please see the plasterboard manufacturer. MASONRY WALL INSTALLATION Rondo Furring Channels and adjustable clips are the ideal combination for battening out irregular walls, ready for the fixing of building boards. 1. INSTALL CLIPS Fix the adjustable BetaGrip® Clips to the masonry wall as figure 8 inset using either "knock-in" anchors or plugs and screws. For timber framed wall use suitable screws. (See note on fixing alternatives for BetaGrip® Clips). 2. ATTACH FURRING CHANNEL The BetaGrip® Clip has 'notches' to accept the furring channel, these are spaced approx 5mm apart. Selecting the appropriate notch and using a rolling action clip the 129 or 308 Furring Channel into place. Check the first Furring Channel for plumb and straightness and using this as a guide install the remaining Furring Channels. For more minute adjustment of the clips for plumb etc., gently tap the prongs of the clip with a hammer to adjust. 3. FIX PLASTERBOARD Screw fix plasterboard, tape and set joints and sand off as lining manufacturers recommendations. 25mm Anchor clips (eg. BETAGRIP) 25mm BetaGrip® Clips can be installed to a wall with Maximum spacings: either one centre fixing 600mm maximum For 308: 900mm or two, as shown, for better For 129: 1200mm security on rough surfaces FIGURE 8: KEY-LOCK® USED TO BATTEN-OUT MASONRY WALL rondo services MUCH MORE THAN JUST QUALITY PRODUCTS We go beyond supplying you with quality products. We give you access to a full suite of tools and services to help you get the job done right and with the confidence that we'll support you every step of the way. TECHNICAL SUPPORT We offer expert technical advice from our team of professional Engineers and Technical Representatives who can support you from beginning concepts all the way through to building completion. WRITTEN WARRANTY Our products are 100% code compliant and we guarantee that they'll perform to our exacting specifications with a written warranty to give you added peace of mind. PRODUCT QUALITY Our state-of-the-art manufacturing technology ensures you receive the highest quality product, with most of our roll-formed products manufactured from the strength of BlueScope Steel. QUALITY CONTROL We have a reputation for uncompromising quality and total code compliance. Our certification to internationally recognised, Lloyd's Register Quality Assurance ISO 9001 is evidence of this. DELIVERY SERVICE We offer a reliable and efficient delivery service, with products delivered in full and on time whether it is on site or to store. TECHNICAL RESOURCES We've developed market-leading technical resources that are available in print and digitally to help you get the job done. REPUTATION It's our reputation for high-quality products backed by exceptional customer service that has led to us being behind the best buildings around the world. It's a reputation you can rely on. ENVIRONMENTAL PERFORMANCE We can offer you additional Green Points due to our participation in the Environmental Sustainability Charter and our Environmental Management System is accredited to ISO14001. CORPORATE SOCIAL RESPONSIBILITY Through purchasing Rondo products, you are also supporting local communities we give back to. We're focused to help kids with cancer, with our main partner, The Kids Cancer Project. Their goal is to reduce the rate of childhood cancer through funded research initiatives.
