ADW offers hundreds of themes to choose from, customizable home screen layouts, multiple dock styles that adapt to five different shortcuts, customizable icons set, switchable animations, a hidden barba with unlimited sliding and more. It is incredibly modifiable for advanced, but fast and user-friendly for beginners, and supports a huge number of devices. Nove Launcher Launcher is free, but only supports ice cream sandwich devices. Once installed on your ICS device, though, you have the flexibility to install ADW icon themes if you want to use them, additional themes to change the layout and appearance of your launcher, a sliding dock with a maximum of 3 pages Of 7 icons each, the scrolling effects and boot of animations that you can activate or deactivate, 1x1 widgets in the terminal bar and more. If you have \$ 4 to spend, Nova Launcher Prime unlocks the count badges not read by e-mail, SMS and Voicemail, allows you to permanently hide app that you never use but you don't want to uninstall, two-finger gestures for the Startup actions and folders in your dockbar.go Launer EXGO The provision of EX launcher for hunger is how can you customizable. There are thousands of themes and packages of icons that you can download to customize Go launcher ex, tons of widgets, lock screen tweaks and more. Fluid, rounded corners, groups of folders, good-looking animations, and an emphasis on clean and customizable layouts make this launcher popular and does not hurt that it supports Android phones that run 2.0 or higher. Combine this with the fact that the developers constantly update the launcher (which Reality is a drawback for many users) and the rolling of additional themes and applications and widgets flavored in the race that adapt well, and you have a wealth of tools to transform your Android experience. Also, it's completely free.Apex Launcherapex Launcher is free, but it's another in the Roundup that only supports ice cream sandwich devices. Even so, it's fast and customizable, it offers up to 9 homescreens, 7 clamps with 5 icons each, replacement icons for warehouse warehouse App and tonnes of beautiful transition and scrolling effects. Best of all, if there is some element of Apex Launcher you don't like, you can easily hide it. You can block your homescreen so that nothing changes, back in case you make a change you want to restore and change the appearance of the app drawer and the apps displayed. \$ 4 we will buy Apex Launcher Pro, which adds multi-finger gestures to those already in the launcher, support for issues of other launchers (such as ADW, Go Launcher and Launcher Pro), 1x1 widget in the pier and counting badges unreaded .Launcher Plaucher Pro is free and is probably the first non-share pitcher of many people. Supports Android devices running 2.0 and later, and while it is not so frequently maintained as others, it still offers fluid burial transitions, customizable layouts, customizable layouts, dock scrolling and live previews. Launcher Pro supports replacement icons packages, infinite scrolling and more. It was a long time since his last update, but if you are looking for a good fast launcher to get started, Launcher Pro is a good choice. Now that you have seen the first five, it's time to put them to a vote all out for the best Android.Honorable pitcher Mentions this week went to Zeam Launcher, which many of yours praised for her minimalist approach and mackerel to a Application launcher, and ICS launcher, which those of you with ice cream The noted sandwich is a huge improvement compared to Yesteryear pitchers. Unfortunately, since most of you do not yet have IC (even if many of you do), it is not an option until you update your device or manufacturer decides to throw yourself a bone. It is worth mentioning is Hoo Hoo Launcher, which does a great job to bring the experience of Launcher ICS to devices not ICS android 4.0 "Ice Cream Sandwich" was announced almost seven months ago, but it's not yet rolled ...
