If you are looking for a way to take the big game this weekend when you're away from your living room, or you just like to take television live when you're trapped somewhere without cable or television, you have a lot of options to help you take a transmission on your mobile phone or your computer. Here is a look at five of the best ways to tune when you're moving. At the beginning of the week we asked how you tune in the live television you have signed up on your mobile device or when you are not in front of the big screen. You answered, and now we returned to take a look at the first five, based on your nominations. The Super Bowl is this weekend, but not all of us we have the privilege of making snacks and ... Read the mostphoto from the worldwide ik.orb / Orb live trip that you need to transmit audio or video around the house, at Your mobile device, or through the globe when you are away from home, ORB can certainly deliver. We mentioned ORB more times, and it's still a great way to send your media from your computer to other devices at your home, or if you are willing to pay for an ORB appliance to connect to your cable or HTPC box, live stream TV or registered TV on any other device lit or shut down the home network. Orb supports video up to 720p and gives you the flexibility to watch live sports, the prime threet TV shows or anything else that is currently broadcast your living room on your mobile phone, tablet or laptop on Wi-Fi , 3G, or 4G when you can't be in the living room to have fun. Prices vary depending on whether hardware is needed (between \$ 79- \$ 99 for the set-top box) to connect to the TV and Home network, or you already have a TV tuner in your HTPC (the ORB Live software and Orb Caster are both Free, but the mobile apps are \$ 9.99.) Only Windows / Mac: The free ORB application allows you to access music, videos and other media stored on your reading MoreslingboxWhere Other live TV streaming solutions offer complexity, Slingbox offers Elegant simplicity. The Slingbox from Sling Media is a set-top box that connects to the TV and to your cable or to your satellite receiver that you actually simply access your TV at home and watch TV live on your computer or mobile device as if You were sitting in front of your TV. You can change channels, browse TV ads and even set up your home DVR to record TV that will not make it home in time to watch. The Slingbox is available in two flavors, the Slingbox only and the Slingbox Pro-HD (which predictably supports the HD and additional devices connected to it) and will return to you back \$ 179.99 to \$ 299.99 (excluding support options Extended). You will also need to reduce \$ 29.99 for the SlingPlayer app to check your Slingbox from your smartphone or tablet, but the price includes one of the richest live live TV streaming solutions and without problems on the Eyetv line the tuners TV and live TV software were, for a long time, the only option for Mac users looking for an easy way to use their Macs as TV or HTPC tuners. They are no longer the only options, but they are certainly one of the best, and if you connect a television source in an eyetv eye and then the glasses in your Mac via USB, you want to watch live TV directly on your computer screen. It combines an eye tuner or DVR with the Eyetv app on your mobile device, and you can send TV live or pre-recorded on your mobile device when you're away from home. The Eyetv app will return \$ 4.99 in the iTunes App Store for any iOS device and tuners vary at a price from \$ 99 to \$ 199 depending on the fact that a DTV tuner is needed, a DTV tuner HD, a tuner with an internal DVR, or a Wi-Fi enabled tuner that can be transmitted in Wireless TV mode to other devices in your Home.VulkanoThe Vulkano flow box may not be one of the most famous set-top tuners on the market, But it's definitely one of the most powerful. For \$ 99.99, the Vulkano flow is an easy to install and configuration device that connects to the cable or satellite tuner, supports HD HD And your home network to allow the user to watch live TV wirelessly on your iOS or Android device on the home network or when you are away 3G or 4G. Get full control on TV home, so you can change channels, browse a guide to integrated programming (which you don't need to pay more for viewing), and also connect to other video inputs like a DVR or HTPC and the Check that too. Vulkano offers desktop players for Mac OS and Windows (free) and mobile players for iOS, Android and Blackberry (\$ 12.99.) HAUPPEGE WINTVHAUPPEGE is an old name in television tuners, and the company is still going strong by offering a range Products to HTPC enthusiasts who want to build their devices to slide, save and watch live and record television and people who would prefer to buy a set-top box to manage streaming for them. Those of you who named the WinTV mentioned that you can easily install a WinTV tuner in your HTPC and download the WinTV application on the HTPC and iOS or Android device to transmit TV from your HTPC to your device. The prices vary depending on the tuner you want, whether you want the HD video and if you want to install an internal tuner or USB or simply prefer a set-top box such as the Hauppauge Broadway (\$ 199), but the WinTV App Addence Apps you will need it from your tuner will return \$ 9.95 and the mobile apps are free (although they only support wi-fi.) Now that you saw the top five, it's time to put them to a vote all out for the winner. The mentionsHonorable mentions this week going out in Streaming TV sites like Justin.TV, which many of you have said you use to send your TV programs to the web so you can capture them when you're away from home, and to the NFL website, which Many of you noticed are really streaming of the great game alone. Finally, since we said that the Security Homeland department had closed the primary domain of FisterSPorts, many of you have taken note of the fact that the site is still active and functioning on another URL. A preferred method that has not received the nomination necessary to make the first five? Do you want to take a case for this, or for your favorite candidates above? Sound out in the comments below. To get or not get: Hulu against Hulu Plus? Do you even need it? Well, strictly, it's not necessarily a "Need" TV but it's nice to be able to enjoy a good fun from our homes .hulu is a TV service online around for just under a decade. When Hulu started, he was called Fancast and you could watch the replays of your favorite television programs online if you happened to lose the actual transmission. A This service was completely free up to the center of 2016 when Hulu It passed to a single payment subscription service. Since then the repertoire of the programming has been expanded since then to include not only reproducing your favorite television programs but Hulu-Bred's originals. If all interested is the possibility of looking at The replays of your favorite shows or staying Friday evening to watch last year's winning films, you can get Hulu for \$ 5.99 a month streaming on your phone, tablet or computer. It's not a bra T-deal. More. Recently Hulu found Hulu Plus - now called Hulu with live TV. This live hulu plan has a price of \$ 54.99 a month. Get Hulu here >> Hulu Basic Starts are \$ 5.99 per month and Hulu Plus Live TV starts at \$ 54.99 per month of shows exhibition, live streaming and Moreno contracts 1. For beginners, Hulu promises that theirs Live with the TV version allows you to look at the content with limited advertising spots. This language is a confused while the normal hulu plan should also come to limited advertising spots. From what we can say, it seems that there are fewer commercials with this version with respect to the \$ 5.99.2 version. With Hulu lives with TV, it is possible to reproduce over 50 live and on-demand channels. These channels include the premier news, entertainment and sports channels like ESPN, MSNBC and National National - A characteristic absent for the regular hulu.3. Something that is quite nice to this particular package is that you can also transmit live and on-demand content on the phone or other mobile devices while you're moving. Even if you can watch the normal Hulu on your phone, the difference is that the content live and upon request will not be available for you.4. With Hulu lives with TV, you can send any of the famous streaming devices - Roku, Chromecast, Apple, Android TV, fire-fighting TV and Xbox also select Samsung models. 5. Streaming on unlimited devices is a component Additional For Hulu Vivi with TV .anced Cloud DVR A It is also an add-on available to this service where you can save live shows you missed and look at them later. This is certainly a lot to love from Hulu live with TV. Should you take it? Everything depends on your particular situation. Cable TV is notoriously expensive these days with plans running hundreds of dollars if you want to watch premium channels like ESPN and Geographic National.Secondly, normal cable TV will require a work technician of the work Home to perform an installation. Sometimes, own the cable box is an additional cost that can add up to \$ 20 a month to your invoice (\$ 240 a year is a lot of money.) Even cable companies. They are well known to start a "Introductory" price that s is raised significantly once you cross a year's sign with them. All these costs add up and can make cable TV in Hassle.Other: Hulu lives with TV is \$ 54.99 a month. Plus, there are: A hidden extra equipment - you will only need a Roku, a Chromecast device, an Apple TV device or a Samsung smart TV to start streaming. These can be purchased very easily at reasonable prices in Walmart and Target and you can use them for life. No cable to come who must come to connect the cables. This means you won't have to take a free day just to wait for the company to show up. No contractsyou can delete at any time without sanctions or consequent access to the same channels, cable companies charge hundreds of dollars of formosa recommendation here is that if you are looking for a more economical alternative to normal cable TV, Hulu lives with TV Vale The investment and in the long run will save you a lot of money. The other hand, if everything you want is to be able to watch Binge Watch Seasons of shows currently running on your phone, tablet or computer, the normal Hulu base plan for \$ 5.99 for \$ 5.99 It will be more than suffici.hulu now offers student prices for \$ 1.99 a month! This is a 65% discount, valid as you are a university student. You can cancel at any time. This student discount offer is only for the Hulu plan (ad-supported). The cost is \$ 1.99 / month as long as the student registration status remains verified, then \$ 5.99 / month or later, normal price. The offer is valid for the new and existing subscribers Hulu-billed enrolled in the title U.S. IV College or accredited universities that meets verification qualifications.
