Thank you! "Raw" Easy to learn... Guitar Tabs Another good site with a great collection of free scores for guitars, has a fresh homepage. There are no tons of free video tutorials that you can watch at your convenience, also has a great collection of free scores for guitars you can download and print. However, it is only a small inconvenience in exchange for free lessons and guides. In December 2018, the site has a little over 1,100,000 free scores for guitars. You have to copy and paste the score into a document if you want to print it. If you are still in the process of learning to play violation, then this site would be a good place to look for music. The key is to go to sites that are popular for presenting free scores ranging from good to exceptionally accurate. One of the downsides for this site is that you do not have a print feature in the real tab page. An obvious advantage of this site is that you can look for guitar guides and practice anywhere, as long as you have your phone, an internet connection and your guitar with you. It may not seem much, but provides an alternative source of free scores.
